

MUHAMMAD HADIF BIN SHOHAIMI

Software Engineering | Web Developer

154, Jalan Temenggong 10, Taman Sri Temenggong, Muar, Johor, 84000

hadifshohaimi@gmail.com | +60 19-6969-173 | Malaysian

SUMMARY

Third-year Software Engineering undergraduate at Universiti Teknikal Malaysia Melaka (UTeM) with a CGPA of 3.75, experienced in full-stack web development, database design, and team-based software projects. Skilled in React, TypeScript, PHP, and MySQL, with a solid foundation in software requirements, system design, and Agile development. Eager to apply web development and problem-solving skills as a **Software Engineer** and contribute to a delivery-focused engineering team. Available for a 24-week internship from 28 September 2026 to 12 March 2027.

SKILLS & SOFTWARE

Programming Languages: JavaScript, TypeScript, Java, C++, PHP, Python, SQL, HTML/CSS

Frameworks & Libraries: React, Node.js, Firebase (Realtime Database, Authentication)

Databases: MySQL, Firebase Realtime Database

Tools: Git, GitHub, VS Code, Figma, Microsoft Office

Professional Skills: Problem Solving, Team Collaboration, Agile/Scrum, Time Management

Languages: Malay (Native), English (Professional)

PROJECTS

UniCinema — Cinema Ticketing & Management System

2025 – Present

Final Year Project · React, TypeScript, Firebase

- Built a web-based cinema ticketing and management system using React, TypeScript, and Firebase Realtime Database, supporting online booking and seat selection.
- Designed a visual seat map for customers to choose seats, and an admin dashboard to manage screenings and hall layouts.
- Implemented role-based access control (RBAC) to separate customer and admin features securely.
- Organised movie data into structured tables for faster, more reliable queries.

iPetro Report Inspection System

2025

Workshop II · Group Project · PHP, MySQL

- Developed a web-based inspection-reporting system for iPetro Services Sdn Bhd on a three-tier architecture using PHP and MySQL.
- Built a photo-driven workflow where inspectors upload site photos and enter data through predefined options to automatically generate API 510-compliant reports.
- Added multi-role login, centralised data management, and real-time progress tracking.
- Reduced report preparation time by an estimated 30–50% through standardised report templates.

EDUCATION

Universiti Teknikal Malaysia Melaka (UTeM)

March 2025 – March 2027

Bachelor of Computer Science (Software Engineering), Hons.

Current CGPA: 3.75

Universiti Teknikal Malaysia Melaka (UTeM)

August 2022 – March 2025

Diploma in Computer Science

CGPA: 3.58
